RNotes: Nurse's Clinical Pocket Guide, 2nd Edition, winner of the AJN 2006 Book of the Year Award!

Philadelphia, PA – Announced in the January 2007 issue of the *American Journal of Nursing* (AJN), author Ehren Myers received the AJN 2006 Book of the Year award in the category of Critical Care-Emergency Nursing.

Since 1969, the *American Journal of Nursing* has been publishing an annual list of the best in nursing publishing. Published in the January issue of the journal, the AJN Book of the Year program is a prestigious competition that garners the attention of its 342,000 readers, as well as librarians and faculty who are not subscribers. The most valuable texts of each year are chosen by AJN's panel of judges.

The judges noted of *RNotes, 2nd edition* that, “for its breadth and depth in covering the whole spectrum of care—from routine to emergency—this easily accessible resource is recommended.”

The wildly popular and highly respected *RNotes* is the preferred pocket-sized tool of nursing educators and students alike. Widely used in the clinical setting for delivery of safe and effective health care, the new second edition continues to present practical, clinically-oriented content across a wide range of topics in a succinct format.
