Occupational Therapy

Adult Physical Conditions

Intervention Strategies for Occupational Therapy Assistants, 2nd Edition

Amy J. Mahle, MHA, COTA/L | Amber L. Ward, MS, OTR/L, BCPR, ATP/SMS

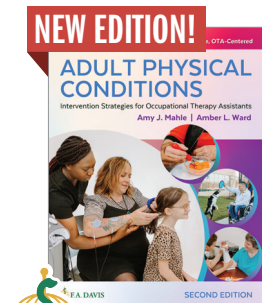

The comprehensive resource for class, clinical, and practice... now in full color!

A team of leaders and OTA educators deliver practical, in-depth coverage of the most common adult conditions and the corresponding evidence-based occupational therapy interventions.

A blend of theory and foundational knowledge with practical applications to OTA interventions and client-centered practice helps students develop the critical-thinking and clinical-reasoning skills they need to become professional, creative, and competent practitioners.

- **NEW & UPDATED!** Chapters incorporate language from the 4th Edition of the Occupational Therapy Practice Framework and align with the latest ACOTE standards
- **NEW & UPDATED!** Full-color, modern photographs reflect real clients and therapists in diverse practice settings
- **NEW CHAPTERS!** *Occupational Justice for Diverse and Marginalized Populations, Motor Control and Neurotherapeutic Approaches, Sexual Activity, and The Influence of Aging on Occupational Performance*
- "Evidence-Based Practice" features recent research relevant to topics in each chapter.
- "Putting It All Together: Sample Treatment and Documentation" uses evaluation, treatment, and documentation based on one relevant case from each diagnosis chapter to connect what students are learning in the classroom and the lab to real-world, skilled client-centered care.
- "Technology & Trends" highlights interesting, new, and relevant technology or treatment trends.
- Real-life "Case Studies" with questions develop critical-thinking and problem-solving skills.
- Review Questions at the end of each chapter assess progress, knowledge, and critical thinking.

Mindful Crafts as Therapy

Engaging More Than Hands

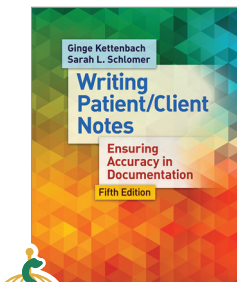

Cynthia L. Evetts, PhD, OTR
 Suzanne M. Peloquin, PhD, OTR, FAOTA

Explore mindful crafts as an effective and efficient therapy.

Cynthia Evetts and Suzanne Peloquin offer a very personal and strategic approach to therapy for individuals with both mentally and physically challenging illnesses and disabling conditions. Your students will draw upon comprehensive activity analyses with rationales to show them how to infuse a deliberate focus on "the person" into their craft work.

- More than 80 crafts that support cognitive, sensory, movement, emotional, and communication aims for clients
- Ideas for modifications to particular crafts to support the specific needs of a client
- Cases, stories, illustrative photographs, and critical-thinking exercises that foster clinical reasoning skills

Functional Performance in Older Adults, 4th Edition

Bette R. Bonder, PhD, OTR/L, FAOTA | Vanina Dal Bello-Haas, PhD, MEd, BSc (PT)

A perfect balance of theory and practice.

The authors’ positive aging approach begins with a complete history of aging, based on available literature. As the book continues, the chapters cover the theories of aging, meaningful occupations in later life, what normal aging looks like, what happens when there are interruptions in function, and treatment options.

Clinical Kinesiology and Anatomy, 7th Edition

Lynn Lippert, PT, MS
Edited by
Mary Alice Duesterhaus Minor, PT, MS | Christopher Towler, PT, DPT, GCS, CEEAA | Scott Minor, PT, PHD

Learn. Practice. Apply.
Clinical Kinesiology and Anatomy and *Kinesiology in Action* work together to create an immersive, multimedia experience that tracks your students' progress until they've mastered the must-know concepts and techniques and are ready to apply them in class, clinic, and practice. They'll develop the foundational knowledge, critical-thinking skills, and technical competencies they need to understand kinesiology.

The Text
Terms, principles, and applications. Clear and simple.
The 7th Edition of this classic text meets today's needs by presenting a complicated topic in a clear, simple, and easy-to-understand manner. Bite-size sections and over 590 full color illustrations show how various anatomical systems are connected and how common pathologies are associated with certain anatomical structures.

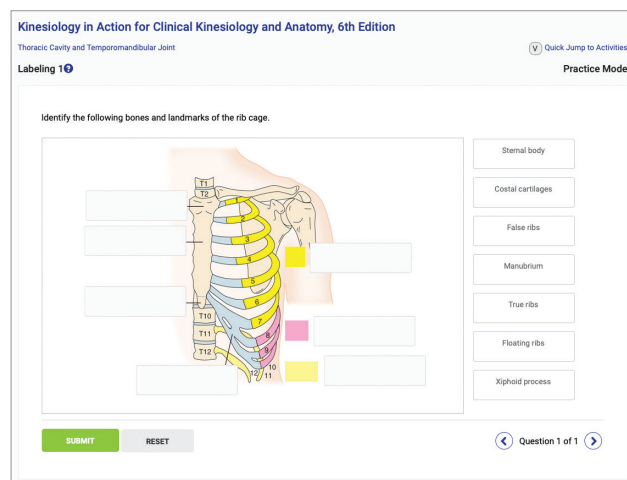

- **EXPANDED!** Emphasis on the biomechanical and kinesiological principles as they apply to human function
- **REVISED!** Reorganization of content to make foundational information easier to understand

Kinesiology in Action
Learning personalized for every student

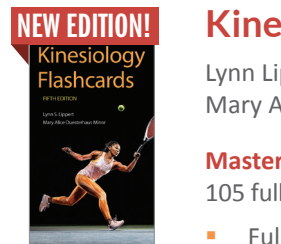

15 online learning modules guide students step by step through the basic theory of joint structure and muscle action to ensure they understand both normal and pathologic movement.

- 'Whiteboard-style' video introduction
- Pre-assessment quizzes
- Pre-lab practice exercises
- Lab video clips of kinesiology in action followed by multiple-choice questions
- Post-assessment quizzes
- Video library with 134 clips, 60 all brand new

Empowering educators, saving time.
Assignments are automatically graded and reported to your Instructor's Gradebook. You'll have everything you need from the very first day of class to the very last.

Labeling Exercises make must-know information easier to master

NEW EDITION!
Kinesiology Flashcards
5th Edition

Lynn Lippert, PT, MS
Mary Alice Duesterhaus Minor, PT, MS

Master muscle anatomy—at the turn of a card!
105 full color flash cards let students master muscle anatomy—anytime, anywhere!

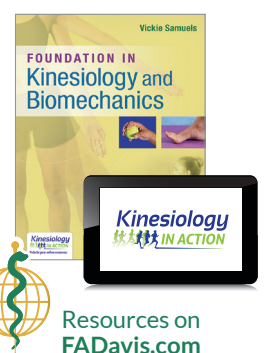

- Full-color drawing of the muscle, attached to the bone
- Name of the muscle
- Origin, insertion, action, and innervations

Joint Structure and Function
A Comprehensive Analysis,
6th Edition

Pamela Levangie,
PT, DPT, DSc, FAPTA
Cynthia C. Norkin, PT, EdD
Michael D. Lewek, PT, PhD

The classic, authoritative text + today's best technology

The text and Kinesiology in Action work together to create an interactive learning experience that teaches students the knowledge and skills to effectively evaluate and treat movement disorders.

In-depth discussions addressing theories of joint structure and muscle action provide the foundation your students need to understand both normal movement and movement pathologies.

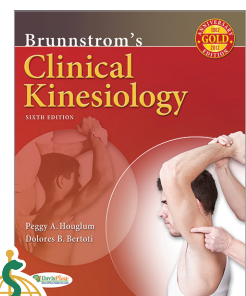

Patient Cases and Case Application show your students WHY they need to understand the principles presented for practice and end-of-chapter questions enhance comprehension

Kinesiology in Action guides students step by step through an immersive, multimedia experience that tracks their progress until they've mastered the concepts and are ready to apply them in practice.

Leading & Managing Occupational Therapy Services

An Evidence-Based Approach,
3rd Edition

Brent H. Braveman, OTR, PhD, FAOTA

Prepare the next generation of leaders and managers

With an emphasis on using evidence to guide leadership and managerial decision making, this approachable text focuses on the content, functions, and issues that lie within the domain of concern for occupational therapy managers—including planning, organizing, controlling, and directing. Critical-thinking questions, real-life cases, and vignettes build the connections between theory and practice.

- **NEW & UPDATED!** Content aligns with the latest ACOTE Standards
- **NEW CHAPTERS!** *Occupational Therapist-Occupational Therapy Assistant Partnership: Supervision and Collaboration* and *Surviving and Thriving in High-Demand Settings*
- **NEW!** “Evidence in Action” illustrates how to find and use evidence to answer question.
- **EXPANDED!** Case studies and vignettes highlight the application of theoretical and technical knowledge.
- “Real-Life” scenarios set the stage at the beginning of each chapter, and their conclusions wrap up the content.
- Critical-thinking questions in each chapter connect theory and evidence to practice.
- Multiple-choice questions at end of each chapter assess understanding.
