Davis's Nursing Skills Videos
Table of Contents

Universal Steps for All Procedures

1. Universal Steps for All Procedures: Before Performing the Procedure
2. Universal Steps for All Procedures: When Performing & Evaluating the Procedure

Measuring Vital Signs

3. Taking an Axillary Temperature*
4. Taking an Oral Temperature
5. Taking a Rectal Temperature*
6. Taking a Temporal Artery Temperature*
7. Taking a Tympanic Membrane Temperature*
8. Assessing Peripheral Pulses
9. Assessing the Apical Pulse
10. Assessing for an Apical-Radial Pulse Deficit*
11. Assessing Respirations*
12. Measuring Blood Pressure*

Health Assessment

13. Brief Bedside Assessment

Promoting Asepsis and Preventing Infection

14. Hand Hygiene: Using Soap and Water
15. Hand Hygiene: Using Alcohol-Based Handrubs
16. Donning Personal Protective Equipment (PPE)
17. Removing Personal Protective Equipment (PPE)*
18. Surgical Handwashing: Brushless System
19. Sterile Gown and Gloves (Closed Method)*
20. Sterile Gloves (Open Method)
21. Setting Up a Sterile Field – Sterile Packaged Equipment*
22. Setting Up a Sterile Field – Sterile Fabric- or Paper-Wrapped Sterile Package
23. Setting Up a Sterile Field – Sterile Drape
24. Adding Supplies to a Sterile Field – Sterile Packaged Equipment
25. Adding Supplies to a Sterile Field – Fabric- or Paper-Wrapped Sterile Package
26. Adding Supplies to a Sterile Field – Sterile Drape
27. Adding Sterile Solutions to a Sterile Field – Sterile Packaged Equipment
28. Adding Sterile Solutions to a Sterile Field – Fabric- or Paper-Wrapped Sterile Package
29. Adding Sterile Solutions to a Sterile Field – Sterile Drape

Promoting Safety

30. Using Bed and Chair Monitoring Devices
31. Using Restraints: Belt Restraint
32. Using Restraints: Mitt Restraint
33. Using Restraints: Vest Restraint
34. Using Restraints: Wrist/Ankle Restraint

Facilitating Hygiene

35. Bathing: Providing a Complete Bed Bath Using a Prepackaged Bathing Product
36. Providing Perineal Care
37. Providing Foot Care
38. Brushing and Flossing the Teeth*
39. Providing Denture Care*
40. Providing Oral Care for an Unconscious Patient
41. Making an Occupied Bed*

Administering Medications

42. Medication Guidelines: Steps to Follow for All Medications (Regardless of Route)
43. Administering Oral Medications: Tablet or Capsule*
44. Administering Oral Medications: Sublingual
45. Administering Oral Medications: Buccal
46. Administering Oral Medications: Liquid Medications
47. Administering Medication Through an Enteral Tube*
48. Administering Ophthalmic Medication
49. Administering Otic Medication*
50. Administering Nasal Medication*
51. Inserting a Rectal Suppository*
52. Inserting a Macy Catheter*+ **(NEW)**
53. Applying Transdermal Medication*
54. Administering Metered Dose Inhaler (MDI) Medication*
55. Drawing Up Medication from Ampules*+
56. Drawing Up Medication from Vials*+
57. Mixing Medication from Two Vials*+
58. Mixing Medications from One Ampule and One Vial+
59. Administering Intradermal Medication*
60. Administering Subcutaneous Medication*
61. Locating the Ventrogluteal Site*
62. Locating the Deltoid Site*
63. Locating the Vastus Lateralis Site*
64. Intramuscular Injection: Traditional Method*
65. Intramuscular Injection: Z-Track Method*
66. Administering IV Push Medications Through a Primary IV Line*+
67. Administering IV Push Medications Through an Intermittent Device (IV Lock) When No Extension Tubing Is Attached to the Venous Access Device*
68. Administering IV Push Medications Through an Intermittent Device with IV Extension Tubing*+
69. Using a Piggyback Administration Set with a Gravity Infusion
70. Using a Piggyback Administration Set with an Infusion Pump+
71. Using a Volume-Control Administration Set+
72. Administering Medication Through a Central Venous Access Device (CVAD)*+

Nutrition

73. Checking Fingerstick (Capillary) Blood Glucose Levels*
74. Inserting Nasogastric and Nasoenteric Tubes*
75. Administering Feedings Through Gastric and Enteric Tubes with Infusion Pump*
76. Administering Feedings Through Gastric and Enteric Tubes Using an Open-System Syringe*
77. Managing Gastric Suction: Initial Equipment Set-Up
78. Managing Gastric Suction: Emptying the Suction Container

79. Managing Gastric Suction: Irrigating the Nasogastric Tubing*
80. Removing a Nasogastric or Nasoenteric Tube

Urinary Elimination

81. Measuring Urine Output from a Bedpan or Urinal
82. Measuring Urine from an Indwelling Catheter
83. Measuring Post-Void Residual Urine Volume (PVR) with a Portable Bladder Scanner*
84. Obtaining a Sterile Urine Specimen from a Catheter*
85. Intermittent Urinary Catheterization*
86. Indwelling Urinary Catheterization*
87. Applying an External (Condom) Catheter*
88. Removing an Indwelling Catheter*
89. Intermittent Bladder Irrigation: Three-Way (Triple-Lumen) Indwelling Catheter*
90. Intermittent Bladder Irrigation: Two-Way Indwelling Catheter*
91. Continuous Bladder Irrigation*

Bowel Elimination

92. Placing a Bedpan*
93. Removing a Bedpan*
94. Administering a Cleansing Enema*
95. Changing an Ostomy Appliance*
96. Irrigating a Colostomy
97. Applying an External Fecal Collection System

Pain

98. Setting Up and Managing Patient-Controlled Analgesia by Pump*

Physical Activity and Mobility

99. Moving a Patient Up in Bed
100. Moving a Patient Up in Bed Using a Mechanical Lifting Device
101. Turning a Patient in Bed*
102. Logrolling a Patient
103. Transferring a Patient from Bed to Stretcher*
104. Dangling a Patient at the Side of the Bed
105. Transferring a Patient from Bed to Chair*
106. Assisting with Ambulation (One Nurse)*
107. Assisting with Ambulation (Two Nurses)*
108. Performing Passive Range-of-Motion Exercises

Skin Integrity and Wound Healing

109. Obtaining a Wound Culture by Swab*
110. Removing and Applying Dry Dressings*
111. Removing and Applying Wet-to-Damp Dressings*
112. Open-Pore Reticulated Polyurethane Foam Therapy (i.e., Vacuum-Assisted Closure [V.A.C.])*
113. Applying a Hydrating Dressing (Hydrocolloid or Hydrogel)
114. Placing Skin Closures*
115. Applying Bandages*
116. Shortening a Wound Drain*
117. Emptying a Closed-Wound Drainage System

Oxygenation

118. Administering Oxygen
119. Performing Tracheostomy Care Using Sterile Technique*
120. Performing Tracheostomy Suctioning (Open System)*+ **(NEW)**
121. Performing Endotracheal Suctioning (Open System)+
122. Performing Tracheostomy Suctioning (Inline Closed System)
123. Performing Upper Airway Suctioning: Oropharyngeal
124. Disposable Chest Drainage Systems: Setting Up
125. Disposable Chest Drainage Systems: Connecting & Dressing*

Fluids, Electrolytes, and Acid-Base Balance

126. Initiating a Peripheral Intravenous Infusion*
127. Regulating the IV Flow Rate*
128. Setting Up and Using Volume-Control Pumps*
129. Changing the IV Solution
130. Changing the IV Administration Tubing and Solution*
131. Peripheral IV Dressings*
132. Central Line Dressings*
133. PICC Line Dressings
134. Converting a Primary Line to a Peripheral IV Lock*
135. Discontinuing a Peripheral IV
136. Administering Blood and Blood Products*
137. Managing a Transfusion Reaction*
138. Assisting With Percutaneous Central Venous Catheter Placement*

Perioperative Care

139. Teaching a Patient to Deep Breathe and Cough*
140. Teaching a Patient to Move in Bed
141. Teaching Leg Exercises*
142. Applying Antiembolism Stockings*
143. Applying Sequential Compression Devices*

Key

* denotes videos with "What If" content
+ denotes video updates (revised and brand-new) for 2023-2025
[Additionally, brand-new videos are also indicated with (NEW) in their title]
